

inoxForni®

**Proofer
Cabinet
L20 - L16
Electric**

*Turbo ventilated chamber for
uniform proofing*

- Made of AISI 430 N4 stainless steel
- Generation of temperature and humidity through electrical resistances.
- Heat and humidity recirculation system.
- Control time, temperature and humidity percentage through the analog control panel and end of cycle alarm.
- Front electrical panel with easy access for maintenance.

Model	Height	Width	Length	Approx. Weight	Voltage	Amps	Total Electrical Power	Energy Consumption
L16	166 cm	80 cm	118 cm	103,0 Kg	220 V	22,72 A	5 Kw	5 Kw/h
L20	196 cm	80 cm	118 cm	113,5 Kg	220 V	22,72 A	5 Kw	5 Kw/h
