**AVAILABLE IN STAINLESS STEEL CONSTRUCTION :
30 % SURCHARGE**

TECHNICAL DATA

Weight Kg.	300
Installed power (KW)	3
Voltage (Volt)	220 monophase
Package length(mm)	min. 80 - max 400 (1 sealing jaw) min. 70 – max 200 (2 sealing jaws)
Sealers length (mm)	160
Film width (mm)	380
Max bag width (mm)	160
Product height max(mm)	60 (80 with modified jaw shaft : optional)
Overall dimensions (mm)	2300 x 800 x 1800
Wrapping speed*	Max. 120 cycles/min

*Depends on product dimension and/or configuration (1 or 2 sealing jaws)

Adjustable film conformer

included

Photocell for centered printing

included
